Subject: Transmittal Letter for Preliminary Construction Plans of Heap Leach Pad for  
Drum Mine, Delta, Utah

Dear Mr. Bhayani:

Attached please find one set of the preliminary construction plans for the heap leach pad at Drum Mine in Delta, Utah. If possible, I would like to have you and your staff review these plans before I write the construction specifications. This procedure will allow the preliminary drawings to be approved before I complete the construction specifications so that no time is wasted having to re-do the specifications if you require that changes need to be made to the drawings. I also need to arrange a time that Mr. Dave Hartshorn and I can meet with you to discuss the requirements for the modifying the processing pond and to discuss all the requirements for getting Drum Mine on line again. If you have any questions or need additional information, I can be reached during business hours at 585-3947 (telephone) or 585-5477 (fax).

Sincerely,

Evert C. Lawton, Ph.D., P.E.
